The opinions expressed in this publication are those of the authors and are not attributable to the sponsors or to the publisher, editor, or editorial board of *Clinical Infectious Diseases*. Articles may refer to uses of drugs or dosages for periods of time, for indication, or in combinations not included in the current prescribing information. The reader is therefore urged to check the full prescribing information for each drug for the recommended indications, dosage, and precautions and to use clinical judgment in weighing benefits against risk of toxicity.

An Official Publication of the Infectious Diseases Society of America and the HIV Medicine Association
